Lower-body stability that helps you hold your ground until the very end.

みんなの海を大切に、
ゴミは必ず持ち帰りましょう。
Keep our ocean clean.
Take your trash home.

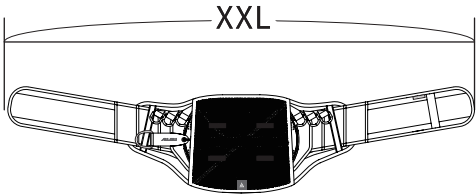

MADE IN CHINA

Please read this instruction manual carefully before using the product.

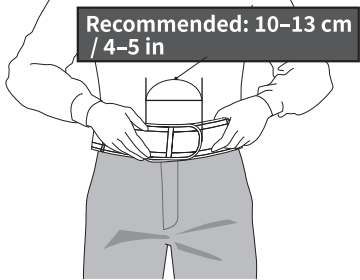

Preparation Before Use

How to Adjust the Size **Cut Line:**  **Gray**

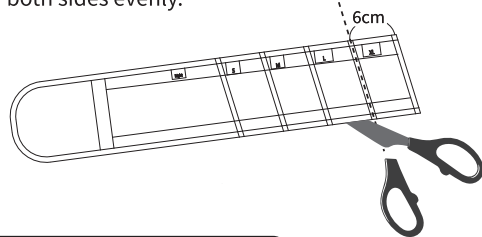

① This product is one size fits all.
In its original condition, it is equivalent to an XXL size.

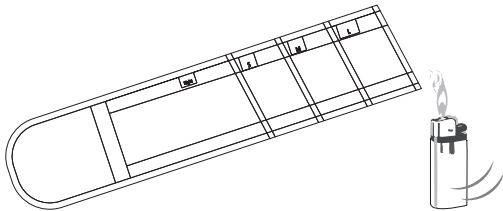

② Try the belt on and check the front overlap.
The hook-and-loop fastener should overlap by 10–13 cm / 4–5 in at the abdomen.

③ If the belt is too long, remove the separate belts from the main unit and cut along the center of the cut line. Do not cut too much at once. Adjust the length by cutting 6 cm (1 block) at a time from each side. Make sure to adjust both sides evenly.

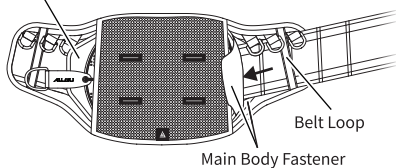

④ After cutting, lightly heat the ends with a lighter to prevent fraying. **※Risk of burns and fire.**
Try the belt on again and check the size.

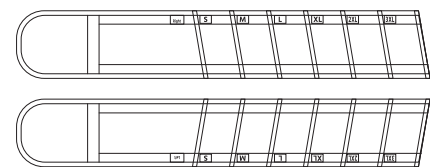

⑤ Attach the hook-and-loop fasteners on both sides of the separate belt to the main body, sandwiching them onto the main body fastener as shown in the diagram.

Attach the belt on the opposite side in the same way.

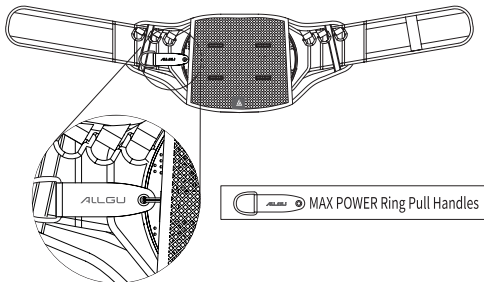

LONG BELT Sold Separately

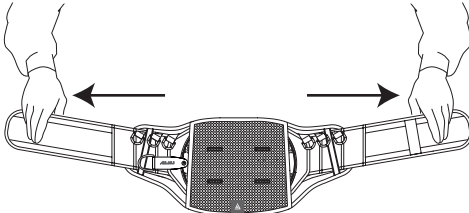

The optional LONG BELT fits waist sizes from 80–148 cm / 31.5–58.3 in over clothing, equivalent to S–4XL.

How to Wear

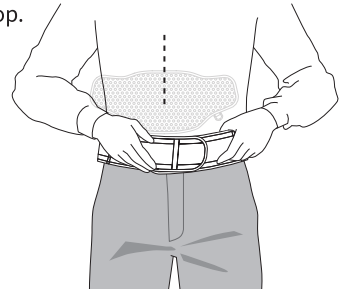

① Leave the pull handles free, or attach them at the base position.

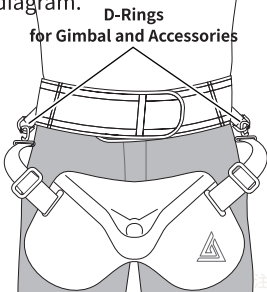

② Hold both ends of the belt and pull outward to open it.

③ Position the pulley unit at the center of your lower back. Secure the front hook-and-loop fastener firmly, with the right side overlapping on top.

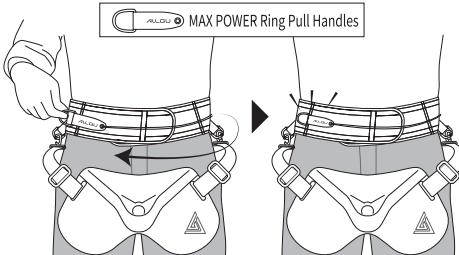

④ Attach the gimbal to the D-rings as shown in the diagram.

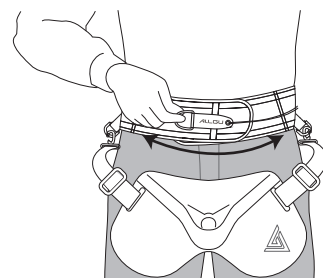

How to Adjust the Tightness

① Pull the left pull handle and attach it as shown in the diagram. The pulley system tightens the belt evenly on both sides.

② Do not overtighten. Readjust as needed.

Important Safety Precautions

• This product is a fighting belt designed for big game fishing. Do not use it for any other purpose. • Before use, always check that all parts are securely fastened and that there is no damage. • Do not use the product without adjusting it to the proper size. Improper fit may cause injury or product damage. • Make sure all hook-and-loop fasteners are securely attached before use. • Do not overtighten the belt, as excessive pressure may place strain on the body or restrict blood flow. • Do not use this product if you are feeling unwell. If you have any lower back condition, consult a physician before use. • Stop using the product immediately if you feel any abnormality or discomfort. • If the belt is cut to adjust the length, always treat the cut ends to prevent fraying. • When sealing the belt ends with a lighter or similar flame after size adjustment, take extreme care to avoid burns or fire, and work in an area free of flammable materials. • Keep this product and all included parts out of reach of children. They may cause unexpected accidents or injury. • Do not tighten the belt with excessive force or subject it to excessive load, as this may cause damage. • Do not modify or alter the product. • Do not use the product if it shows signs of wear, tearing, or damaged parts. • After use, rinse off salt and dirt with fresh water and dry thoroughly. • Store away from direct sunlight, high temperatures, and high humidity. • Do not use or store near fire or open flames.

Disposal Instructions

Dispose of this product in accordance with the waste disposal rules specified by your local municipality.
Product specifications and appearance are subject to change without notice for improvement purposes.
